

VICTORIA 2020 TURNPONT CHALLENGE NOW OPEN

1 SEPTEMBER 2020 - 30 APRIL 2021

We are excited to announce that the
Victoria 2020 Turnpoint Challenge is **NOW OPEN**.

Join us for an event that challenges you to explore unique Victorian mountain regions, incredible coastlines, and quintessential flatlands. The event is open to pilots of all skill levels from XC newbies just starting their XC adventures to experts wanting to push their boundaries.

WHATS NEW IN 2020

1. A BRAND NEW PLATFORM AND AWESOME WEBSITE

We have a brand new platform written and designed from the ground up specifically for this type of event. Combined with a user-friendly website, keeping track of your progress has never been easier.

2. OVER 750 TURNPOINTS

Our team has been hard at work, ensuring there is an equitable spread of turnpoints around each of the main launch sites in Victoria.

With over 100 coastal turnpoints for the coastal pilots and more evenly populated turnpoints around our inland sites, there is plenty of opportunity for pilots of all levels to participate at a myriad of different locations.

We've also included turnpoints to mark possible major XC routes for those pilots who seek a bit more adventure this season.

3. COLOUR CODED TURNPOINTS

Experienced XC pilots have provided advice on the degree of difficulty for all of the turnpoints. Based on this advice, the turnpoints have been colour coded to help serve as a guide for pilots when looking at the turnpoint maps.

Green turnpoints are easily accessible and often flown and an excellent target for new pilots.

Turnpoints then range in colour from blue to red to black with black being aimed at very experienced XC pilots who want to push themselves further.

4. SUB CHALLENGE CAPABLE

While the Victoria 2020 challenge is our signature challenge, we can now host any number of sub-challenges. These may be localised events with local turnpoints run by local clubs or organisers for any time period, ie a long weekend, a month or a season.

LAST YEARS TESTIMONIALS

“It took me to corners I hadn’t been before”
2019 participant

“I found myself flying longer and further than before. Having something to focus on while flying made such a huge difference to my flying”
Jacqx Bryanna

“The friendly rivalry and support between local pilots helped us all push ourselves to fly further and to fly new sites”
2019 participant

“What a brilliant idea! Without the pressure of time constraints and having to fly in gaggles of other pilots, this type of challenge is relaxed and rewarding”
2019 participant

COVID-19 & THE TURN POINT CHALLENGE

We are proceeding with the 2020 Turnpoint Challenge with the understanding that some pilots may be locked down and unable to fly.

We considered delaying the launch but decided to proceed given the event is a season-long challenge so no undue advantage would be gained by pilots able to fly now. This now gives pilots that can fly the opportunity to start while those locked down can still plan their season and have something to look forward to.

Please ensure that you respect and follow any SAFA or club guidelines as we all navigate through these difficult times.
